

# GIRO

The GIRO is always available for everyone. It is a basic light pole for any desired fixture. Would you like a natural look, but do you have a specific light fixture in mind that meets your lighting needs. Then the GIRO is a solution. A light pole that we can deliver at your ideal height up to a maximum height of 6 metres.

## SPECIFICATIONS

- **Thickness:** 180-200 mm
- **Wood type:** Chestnut
- **IP class:** IP54
- **Lifespan:** Every type of wood has its own durability rating. More information about this can be found under the heading "types of wood".
- **Piece:** 60 or 76 mm, other sizes on request.

## OPTIONS

- **Quality mark:** PEFC
- **Accessories:** The GIRO is available with or without post holder. See chapter 'post holders' for all technical data on the different post holders.
- **Connection:** Possible with cable or without cable (1 mtr 3x 1.5 mm<sup>2</sup>). A 32mm hole in the fixture as standard for easy passage for your ground cable.
- **Variations:** At Timberlab, every fixture is carefully produced for you. In addition to the standard options, we are happy to create variations for your application. Think of a wall socket or a different height angle.
- **Mast hatch:** available as standard (OV post holder).
