

Timberlab AQUA sprinkler

An ideal solution for hiding a sprinkler. Completely concealed in a wooden pole whether or not combined with a fence post. After spraying, the sprinkler will sink completely into the pole. The sprinkler comes up when there is water pressure. Depending on the amount of pressure, the pole will spray up to fourteen meters far.

The pop-up sprinkler can be used in 10cmx10cm fence posts but also in 15cmx15cm gate posts. After spraying it sinks completely into the pole. The nozzle and pole are protected by a stainless steel 316 cover. The 25mm tubing runs through the pole and extends below ground level for one meter, making it easy to connect. Depending on the pressure, the pole sprays up to fourteen meters far.

BENEFITS

- Full concealed protected nozzle
- Spray angle adjustable from 40° to 360°
- Easy to connect

FEATURES

- Solid wood with bore for horse routing
- Sprays up to fourteen meters, various nozzles included
- Can be combined with TORRE lighting in other posts.
- Different dimensions possible

APPLICATION

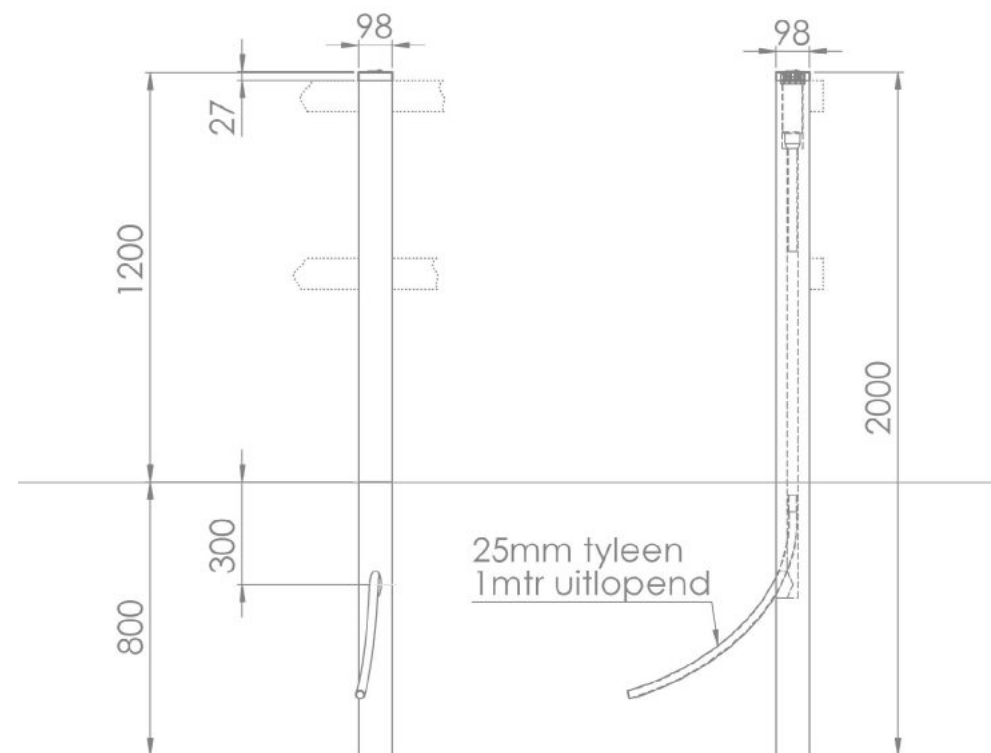

- Horse boxes
- Camps
- Gardens
- Parks

VARIATIONS (ON REQUEST)

- Different types of wood and pole sizes possible
- Different height

ACCESSORIES

- Key for setting the spray angle is included

ø standard nozzle	capacity	beam range
mm	l/h at 4,0 bar	m
0,5	180	9,1
0,75	230	9,8
1	230	10,7
2	750	13,1
2,5	790	12,5
3	1130	12,8
4	1330	14,9
6	1430	14,6
8	2150	14,8

σ low spray angle nozzle	capacity	beam range
mm	l/h at 3,4 bar	m
1	410	7,92
3	800	10,67
4	1000	11,28
6	1660	12,19
